

Cone Dop

Brand: Precision Faceting
Product Code: DOP3268-CO

Price: \$8.00

Short Description

We offer an extensive range of high quality brass cone dops.

Description

We offer an extensive range of high quality brass dops. Our range of CNC machined dops are manufactured from solid brass with a precision turned .250 shank. We use a corrosion resistant brass alloy to avoid pitting and wear patterns that can occur with less expensive aluminum.

Estimated Delivery Time

Due to the amount of orders currently being processed, please allow for a 4 week delivery period. If ordering from outside of the United States, this delivery period could be longer.
